

CREME CARAMEL FLAVOR

Phenylalanine-free amino acid mixture, with sweeteners, indicated for the dietary treatment of hyperphenylalaninemia, including phenylketonuria.

» **INDICATIONS** For the dietary treatment of children over three years of age and adults, with known hyperphenylalaninemia including phenylketonuria and maternal phenylketonuria.

» **DOSAGE AND ADMINISTRATION** According to the doctor's prescription, taking into account age, body weight, and clinical condition of the subject.

» **INSTRUCTIONS FOR USE** Afenil® Buddy is used to make a cream to be taken with a spoon. To prepare, pour the contents of one sachet into a glass and add at least 80 ml of protein-free drink such as Milco®, water or other allowed drinks, depending individual tastes. Sweeten if necessary. Mix well and allow the reconstituted mixture to sit for a couple of minutes. A warm liquid can be used to improve solubility of the product. The reconstituted product can be consumed immediately, stored in a refrigerator as a pudding for 24 hours or in the freezer, and eaten as an ice cream. After consuming, drink water or other allowed drinks.

» **STORAGE CONDITIONS** Store in a cool and dry place, away from light and sources of direct heat. The expiry date refers to the product in an unopened, correctly stored package.

» **IMPORTANT WARNINGS** Afenil® Buddy must only be taken under medical supervision by individuals with known phenylalaninemia including phenylketonuria. Afenil® Buddy must not be used as one's only source of food. Keep out of the reach of children. The product can result in health risks if consumed by individuals who do not have the specific disorder for which it is indicated.
