30 per 24 g

GA

6+ months

NEUTRAL FLAVOR

Amino acid mixture free from lysine and with low tryptophan content supplemented with vitamins, minerals, selenium, taurine, and carnitine, indicated for the dietary treatment of type 1 Glutaric Aciduria.

›› INDICATIONS

For the dietary treatment of children from six months of age and adults with known type 1 glutaric aciduria.

›› DOSAGE AND ADMINISTRATION

According to the physician's prescription, taking into account age, body weight, and clinical conditions of the subject.

›› INSTRUCTIONS FOR USE

GA Medigel can be consumed either as a gel or as a beverage.
To make a gel: pour the contents of one sachet of GA Medigel into a glass; if desired, add flavor to taste; add approximately 30 ml of cold water; mix well for about 10 seconds; to obtain a creamy gel, let the product stand for about 2 minutes.
To make a drink: pour the contents of one GA Medigel sachet into a glass; if desired, add flavor to taste; add approximately 80 ml of cold water; mix well for about 10 seconds; drink immediately.
GA Medigel can be consumed as is with a spoon or mixed with other allowed foods. For best results, when possible, GA Medigel should be prepared and consumed immediately. When necessary, the re-constituted and unused product can be kept for up to 24 hours in a refrigerator and mixed well before use. Once opened, the powder in the pouch should be completely consumed. Any excess product can be stored in a refrigerator and used within 24 hours.

›› STORAGE CONDITIONS

Store in a cool and dry place, away from light and sources of direct heat. The expiry date refers to the product in an unopened, correctly stored package.

›› IMPORTANT WARNINGS

GA Medigel must be taken under medical supervision by individuals with known type I Glutaric Aciduria. GA Medigel must not be used as one's only source of food.
The product can result in health risks if taken by individuals who do not have the specific disorder for which it is indicated. Keep out of the reach of children.
