

UCD medimicro

440 g
4 x 110 g

UCD

3+

Essential amino acid mixture
in micro-tablet format, indicated
in the treatment of urea cycle disorders.

- » **INDICATIONS** For the dietary treatment of subjects starting from three years of age with an ascertained urea cycle disorder. Micro-tablets are suitable for children from three years of age upwards, depending on their ability to swallow, as determined by the attending physician.
- » **DOSAGE AND ADMINISTRATION** According to the physician's prescription, taking into account age, body weight, and clinical condition of the subject. The cap of the container contains about 13 g of micro-tablets (equal to approximately 8 g of protein equivalent).
- » **INSTRUCTIONS FOR USE** Take the prescribed amount with water or other allowed liquids. The micro-tablets have no taste; to retain this feature, it is recommended that they are not chewed, pulverized, or dissolved.
- » **STORAGE CONDITIONS** After use, close the container properly and store it in a cool and dry place, below 25°C, away from light and sources of direct heat. The expiry date refers to the product in an unopened, correctly stored package.
- » **IMPORTANT WARNINGS** UCD Medimicro must be taken under medical supervision by individuals with a known urea cycle disorder. HOM Medimicro 3H must not be used as one's only source of food. The product can result in health risks if taken by individuals who do not have the specific disorder for which it is indicated. Keep out of the reach of children.
