

LIPOSCUDIL®PLUS

PIAM

What is it?

Liposcudil®Plus is a dietary supplement characterised by the presence or fermented red rice (of which 10 mg in monacolin K) to give the property of contributing to maintaining normal levels of cholesterol in the blood.

The coenzyme Q₁₀ has also been added to the **Liposcudil®Plus** formula to make up for any depletion of it due to the inhibition of its synthesis by the monacolins.

The components of **Liposcudil®Plus**, red rice fermented from *Monascus Purpureus* and the coenzyme Q₁₀ by means of an innovative pharmaceutical technique, have been adsorbed in a self-emulsifying system that makes them water dispersible. Therefore, they have the advantage of being more soluble and therefore more bioavailable. Using this technique ensures optimal effectiveness of fermented red rice as well as better bioavailability of the coenzyme Q₁₀.

AVERAGE CONTENT OF CHARACTERISING COMPONENTS	Per daily dose (1 cps)
Fermented red rice (from <i>Monascus purpureus</i>)	333 mg
of which Monacolin K *	10 mg
Coenzyme Q ₁₀ *	30 mg

The red rice fermented by *Monascus purpureus* is titrated to 3% in Monacolin K

* *Red rice fermented and coenzyme Q₁₀ made water dispersible according to patented technology - patent No. IT1400695*

When the taking of Liposcudil®Plus is indicated

Liposcudil®Plus is useful to promote the control of blood cholesterol levels in a generally adequate diet.

Directions for use

Take one capsule a day, to be swallowed with a little water, preferably after the evening meal. The beneficial effect is obtained with the daily taking of 10 mg of Monacolin K from fermented red rice preparations.

Warnings

Do not exceed the recommended daily dose. Do not use in pregnancy, when breast-feeding and if being treated with lipid-lowering drugs. To use the product we recommend you obtain your doctor's opinion. Keep out of reach of children under the age of three. Food supplements are not intended to replace a varied and well-balanced diet and a healthy lifestyle. **Gluten free.**

Packaging

Box containing 30 capsules.
